17.00 Closing remarks

Dr AK Anderson

Learning objectives

By the end of the study day, delegates will have:

- a) Gained greater awareness and understanding of relevant and topical issues, developments and challenges in paediatric palliative medicine research.
- b) Obtained updated knowledge of research and trials within the discipline of paediatric palliative medicine.
- c) Increased their knowledge and awareness of the complexity of developing evidence-based medicine in paediatric palliative medicine.

Who should attend?

- Paediatric palliative care doctors; encompassing paediatricians, hospice doctors, specialist GPs and trainees.
- Senior nurses and nurse consultants as well as specialist allied professionals working at a senior level in paediatric palliative medicine.
- Researchers in the field of, or aligned specialties to, paediatric palliative care.
- APPM members and non-members alike.
